

Our Water & Weather

Unit 1: Atmosphere & Meteorology	13
1 A Christian View of Weather	14
2 Structure of the Atmosphere	16
3 The Weight of Air	19
Special Feature Discovery of Air	22
4 The Study of Weather	23
Unit 2: Ancient Weather & Climate	26
5 Weather vs. Climate	27
6 Pre-Flood Climate	31
7 Climate Changes Due to the Genesis Flood	34
Special Feature Weather and the Bible	38
8 Global Warming	40
Unit 3: Clouds	43
9 Water Cycle	44
10 Cloud Formation	47
11 Cloud Types	50
12 Precipitation	53
Special Feature The Dust Bowl	57

Unit 4: Storms**59**

13	Air Masses & Weather Fronts	60
14	Wind	63
15	Thunderstorms	67
16	Tornadoes.	71
17	Hurricanes	75

Unit 5: Weather Information**80**

18	Gathering Weather Information	81
	Special Feature Weather Myths	86
19	More Weather Instruments	88
20	Reporting & Analyzing Weather Information.	93
21	Forecasting the Weather	96
22	Weather Station: Final Project	99

Unit 6: Ocean Movement**101**

23	Overview of the Oceans.	102
24	Composition of Seawater	105
25	Ocean Currents	108
	Special Feature El Niño	112
26	Waves	114
27	Tides	118
28	Wave Erosion.	121
29	Energy from the Ocean	124

Unit 7: Sea Floor**126**

30	Sea Exploration	127
31	Geography of the Ocean Floor.	131
32	Ocean Zones	135
	Special Feature Intertidal Zones.	138
33	Vents & Smokers	139
34	Coral Reefs	142
35	Conclusion	145
	Glossary	146
	Challenge Glossary	148

Our Universe

Unit 1: Space Models

153

Lesson 1	Introduction to Astronomy	154
Lesson 2	Space Models	156
Special Feature	Nicolaus Copernicus	161
Lesson 3	The Earth's Movement	163
Lesson 4	Tools for Studying Space	167
Special Feature	Galileo Galilei	173

Unit 2: Outer Space

175

Lesson 5	Overview of the Universe	176
Lesson 6	Stars	179
Lesson 7	Heavenly Bodies	182
Special Feature	Astronomy vs. Astrology	186
Lesson 8	Asteroids	187
Lesson 9	Comets	190
Lesson 10	Meteors	193

Unit 3: Sun & Moon

197

Lesson 11	Overview of Our Solar System	198
Lesson 12	Our Sun	202
Lesson 13	Structure of the Sun	205
Lesson 14	Solar Eclipse	209

Lesson 15	Solar Energy	212
Lesson 16	Our Moon	215
Special Feature	Newton & the Apple.	218
Lesson 17	Motion & Phases of the Moon	220
Lesson 18	Origin of the moon	224

Unit 4: Planets

227

Lesson 19	Mercury	228
Lesson 20	Venus.	231
Lesson 21	Earth	234
Lesson 22	Mars	237
Lesson 23	Jupiter	240
Lesson 24	Saturn	243
Lesson 25	Uranus.	246
Lesson 26	Neptune.	249
Lesson 27	Pluto & Eris	252
Special Feature	Planet Statistics.	255

Unit 5: Space Program

256

Lesson 28	NASA.	257
Lesson 29	Space Exploration.	261
Lesson 30	Apollo Program	266
Lesson 31	The Space Shuttle	271
Special Feature	Rick D. Husband	275
Lesson 32	International Space Station.	276
Lesson 33	Astronauts	280
Special Feature	Jeffery Nels Williams.	283
Lesson 34	Solar System Model.	285
Lesson 35	Conclusion	287
Glossary	289
Challenge Glossary	290

Our Planet Earth

Unit 1: Origins & Glaciers

293

Lesson 1	Introduction to Earth Science	294
Lesson 2	Introduction to Geology	298
Lesson 3	The Earth's History	301
Special Feature	Dating Methods	305
Lesson 4	The Genesis Flood	307
Special Feature	The Search for Noah's Ark	309
Lesson 5	The Great Ice Age	311
Lesson 6	Glaciers	314
Special Feature	Sir Ernest Shackleton & the <i>Endurance</i>	318
Lesson 7	Movement of Glaciers	320

Unit 2: Rocks & Minerals

323

Lesson 8	Design of the Earth.	324
Lesson 9	Rocks.	328
Lesson 10	Igneous Rocks	331
Lesson 11	Sedimentary Rocks	335
Lesson 12	Fossils	339
Lesson 13	Fossil Fuels	342
Lesson 14	Metamorphic Rocks	346
Special Feature	Artificial Islands.	348

Lesson 15	Minerals	350
Lesson 16	Identifying Minerals	353
Lesson 17	Valuable Minerals	356
Lesson 18	Natural & Artificial Gems	359

Unit 3: Mountains & Movement 361

Lesson 19	Plate Tectonics	362
Lesson 20	Mountains	366
Lesson 21	Types of Mountains	368
Lesson 22	Earthquakes	372
Lesson 23	Detecting & Predicting Earthquakes	377
Lesson 24	Volcanoes	380
Special Feature	Mt. Vesuvius	383
Lesson 25	Volcano Types	385
Lesson 26	Mount St. Helens	389

Unit 4: Water & Erosion 392

Lesson 27	Geysers	393
Lesson 28	Weathering & Erosion	397
Lesson 29	Mass Wasting	399
Lesson 30	Stream Erosion	402
Lesson 31	Soil	406
Lesson 32	Grand Canyon	409
Lesson 33	Caves	412
Lesson 34	Rocks & Minerals Collection	415
Lesson 35	Conclusion	417
Glossary	418
Challenge Glossary	420
Index	421
Photo Credits	426

Welcome to GOD'S DESIGN®

HEAVEN & EARTH

You are about to start an exciting series of lessons on Earth science. *God's Design® for Heaven and Earth* consists of: *Our Universe*, *Our Planet Earth*, and *Our Weather and Water*. It will give you insight into how God designed and created our world and the universe in which we live.

No matter what grade you are in, third through eighth grade, you can use this book.

3rd–5th grade

Read the lesson.

Do the activity in the light blue box (worksheets will be provided by your teacher).

Test your knowledge by answering the **What did we learn?** questions.

Assess your understanding by answering the **Taking it further** questions.

Be sure to read the special features and do the final project.

There are also unit quizzes and a final test to take.

6th–8th grade

Read the lesson.

Do the activity in the light blue box (worksheets will be provided by your teacher).

Test your knowledge by answering the **What did we learn?** questions.

Assess your understanding by answering the **Taking it further** questions.

Do the Challenge section in the light green box. This part of the lesson will challenge you to do more advanced activities and learn additional interesting information.

Be sure to read the special features and do the final project.

There are also unit quizzes and a final test to take.

When you truly understand how God has designed everything in our universe to work together, then you will enjoy the world around you even more. So let's get started!
