What Is BJU Press Heritage Studies?

The BJU Press Heritage Studies materials present social studies from a biblical worldview. Civics, culture, economics, geography, and history are taught in light of Creation, Fall, and Redemption—the three prongs of a biblical worldview.

The biblical worldview presentation is reinforced with stories of people using their abilities to make a difference in the world. It is our hope that students will be inspired to use their abilities to make a difference too.

WORLD REGIONS

WORLD REGIONS is an age-appropriate study of our global community with a special emphasis on government and citizenship, geography and climate, resources and economics, culture, and religion. Stories and legends, engaging art and photos, maps, infographics, essential questions, and literacy skills features promote student learning.
