To the Student

These workbook exercises have been carefully developed to ensure mastery. They are not just busy work. You should approach each section of the workbook as something to be done carefully, accurately, and neatly, not something to finish as quickly as possible.

A good plan is to do half of a drill or exercise with your teacher until you are sure you understand the concept. Then you can complete the unfinished work on your own and check your work immediately afterwards.

Do all of the workbook pages. It's almost impossible to practice Latin too much. The workbook exercises follow a logical plan and are generally organized into four to six sections, with these titles:

- Vocabulary and Derivatives
- Word Study and Grammar
- Conjugations *or* Declensions
- Form Drills
- Translation Exercises
- Enrichment ~ Review

Write neat, legible cursive in your workbook. Take pride in your work. If you work a little each day and think about what you are doing instead of just trying to fill out pages, you will be successful in Latin.
