Additional information from Home Science Tools:

1. The products in this kit are intended for parent/teacher use to complete curriculum lab activities with students.
2. Some items are not designed for or intended primarily for children ages 12 and under.
3. Some materials and many chemicals we provide are dangerous and may be harmful if misused. With your purchase, you are assuming all responsibility for any injuries or damages resulting from the storage, use, and disposal of all materials and chemicals.
4. Some products may differ from the web image (such as clay, food coloring, etc.)
5. While our kits conveniently contain most of the items you'll need to complete the labs, they do not include some common household items or more expensive items like microscopes and live cultures.

WARNINGS !!

- **HAZARDOUS CHEMICAL:** This kit contains hazardous chemicals. Not for children under the age of 15. For use under adult supervision. Read warning labels carefully.
- **CA Proposition 65:** This product can expose you to Respirable crystalline silica (sand dust), which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.
- **CHOKING HAZARD: Balloons.** Children under 8 years can choke or suffocate on underinflated or broken balloons. Adult supervision required. Keep uninflated balloons from children. Discard broken balloons at once.
- **CHOKING HAZARD: Small parts.** Not for children under 3 years. Adult supervision required.
