Measurement

COMPARE AND ORDER TWO OR MORE OBJECTS ACCORDING TO ONE MEASURABLE ATTRIBUTE

Student Activities

Compare and order objects

by the measurable attribute of length

- Relate each bug to its match by length..... 1
- Relate each snake to a rope of the same length 2
- Relate each object to its place in an ordered set 3
- Relate each object to its corresponding outline 4
- Compare each thickness with its corresponding thickness..... 5
- Relate each object to its place in an ordered set 6

Compare and order objects

by the measurable attribute of capacity

- Relate each object to its match by size..... 7
- Compare the size of each character to an object of relative size 8
- Relate each object to its place in an ordered set 9
- Relate each present to its match by size..... 10
- Compare each shape to another shape of the same relative size 11
- Relate each object to its place in an ordered set 12

Compare and order objects

by the measurable attribute of mass

- Relate each object to its representation of relative mass 13
- Relate each object to its place in an ordered set 14
- Compare each picture to the match which shows relative mass 15

Compare objects

by the measurable attribute of area

- Relate each outline to the shape that covers its area..... 16
- Relate each area outline to the shape or shapes that cover it 17
- Relate each area outline to the shapes that cover it 18

Identify and describe appropriate dress and activities for a variety outdoor temperatures

- Connect each weather picture to the picture that shows appropriate clothes or accessories for that kind of weather 19
- Relate each picture to its corresponding weather 20
- Connect each scene to its corresponding appropriate object..... 21

Identify standard and non-standard measuring tools appropriate for particular kinds of measurement

- Connect each set of objects to its representation on a balance 22
- Connect the length of each object with the non-standard units used to measure it..... 23
- Connect each object to its best standard or non-standard measuring tool..... 24
