

Canadian Money

— Grades 3 to 4 —

Written by Leanne Howse

Learning how to count money is an important skill as we need money to buy some of our favourite things! This resource is packed with worksheets and activities that allow students to practice important concepts involving money to meet expectations of the grade 3 and 4 Ontario Mathematics Curriculum. Concepts covered include: estimating, counting & representing money amounts up to \$10/\$100; adding & subtracting money amounts up to \$10/\$100; making change for purchases up to \$10/\$100. Assessments that can be used at the end of the math unit are included for each grade along with a marking rubric.

Leanne Howse has been teaching since 1999. Although she has had experience in all elementary grades, she has found true joy in teaching primary students. She currently teaches grade 1/2. Although teaching is her passion, she enjoys creating resources that other teachers can use in their classrooms. She resides in Delhi, Ontario with her husband and 2 children.
