Sticky Note or Notecard Practice

Sticky note or notecard problems are one of my favorite ways to practice a skill when you only want a quick bit of review. Many kids will put forth better effort when they must complete only one problem. Write out just one of the problems below on a sticky note or notecard for your child. Have your child complete that one problem before starting the lesson for the day.

**SKILL ONE****ADDING THREE-DIGIT NUMBERS****Make the Greatest Sum Game Board**

Play Make the Greatest Sum using the instructions below and the game boards on the next two pages.

Make the Greatest Sum Game**You Will Need:**

- Numbered cards (such as Uno® cards) with the numbers 0–9
- 2 sheet protectors
- 2 dry-erase markers
- 2 players

You Will Do:

1. Slide each game board into a sheet protector. Players will use dry-erase markers and erase after each round so they can reuse the game board. Alternatively, you could laminate the playing game boards instead of using sheet protectors.
2. Each player draws six cards. Players arrange them on their game boards to create a three-digit addition problem.
3. Both players find the sum. Any player who makes a mistake will lose that round.
4. The player with the greater sum wins that round. There are three rounds in a game; the player who wins the most out of three rounds wins the game.
